We will post important notifications
on the admissions section of the department website.

X @cbmsPr

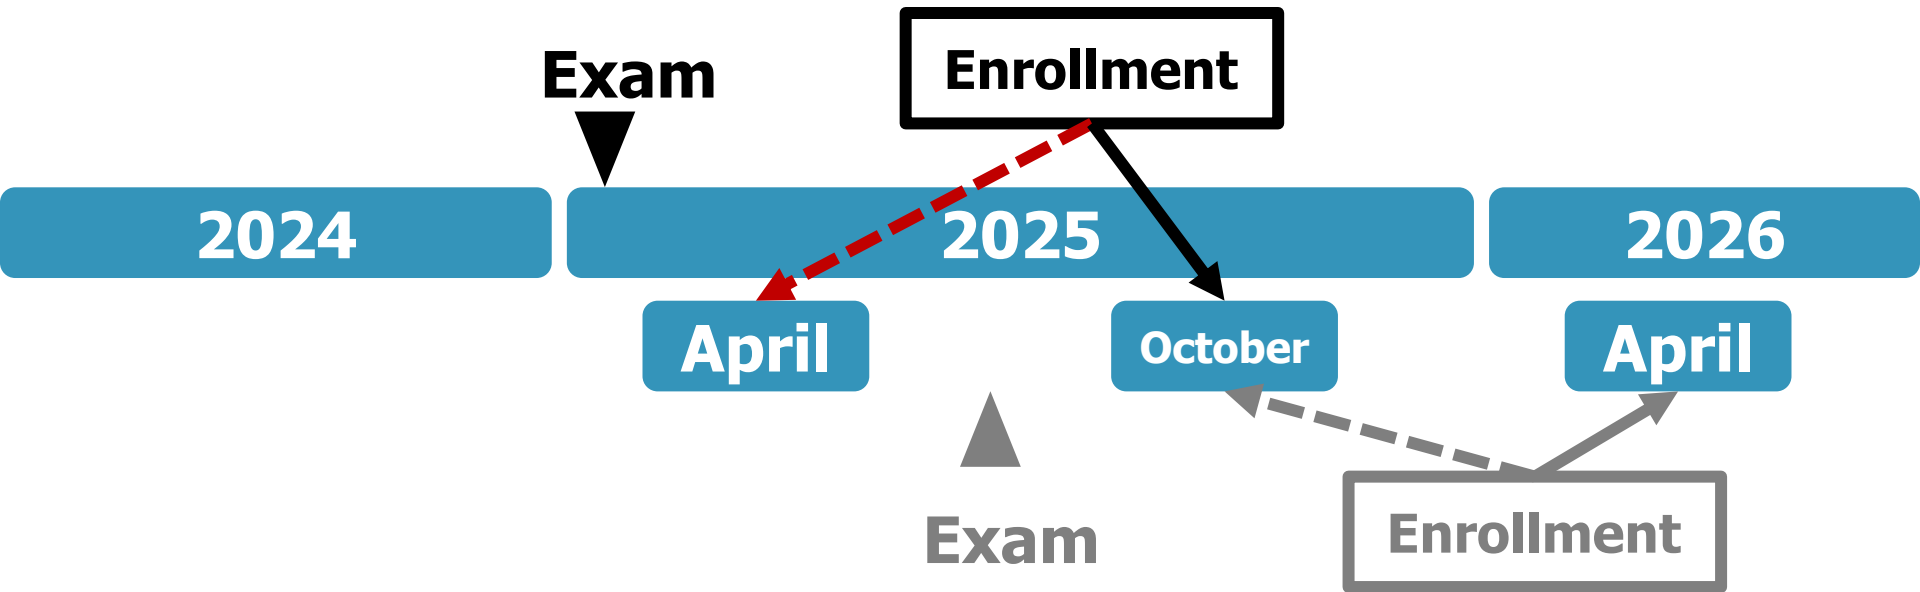

Time of Admission for Successful Applicants

If a Certificate of Eligibility is newly required, you will not be able to enroll in April 2025 even if you pass the Entrance Examination under Schedule B. (Please check the flowchart)

Graduate School Entrance Examinations, Schedule B

January 2025 Examination

A part of the oral examinations will be conducted in August 2025

August 2025 Examination

A part of the oral examinations will be conducted in January 2026

Graduate School Entrance Examinations, Schedule A

Time of Admission for Successful Applicants

Admission Website URL: <https://www.k.u-tokyo.ac.jp/en/exam/info/>

Information on Entrance Examinations

Welcome to our website for information on entrance examinations.
This website shows the necessary information on GSFS entrance examinations.

[Important] For those who are applying

- Applications must be submitted online.
- Please make sure that you can receive emails from the [@e-apply.jp] domain sent from the online application site.
- If you have any questions, please check "6. FAQs" at the bottom of this page.
- The Guidelines for Applicants to the 2025 [Master's and doctoral programs] have been released. (March 29, 2024)

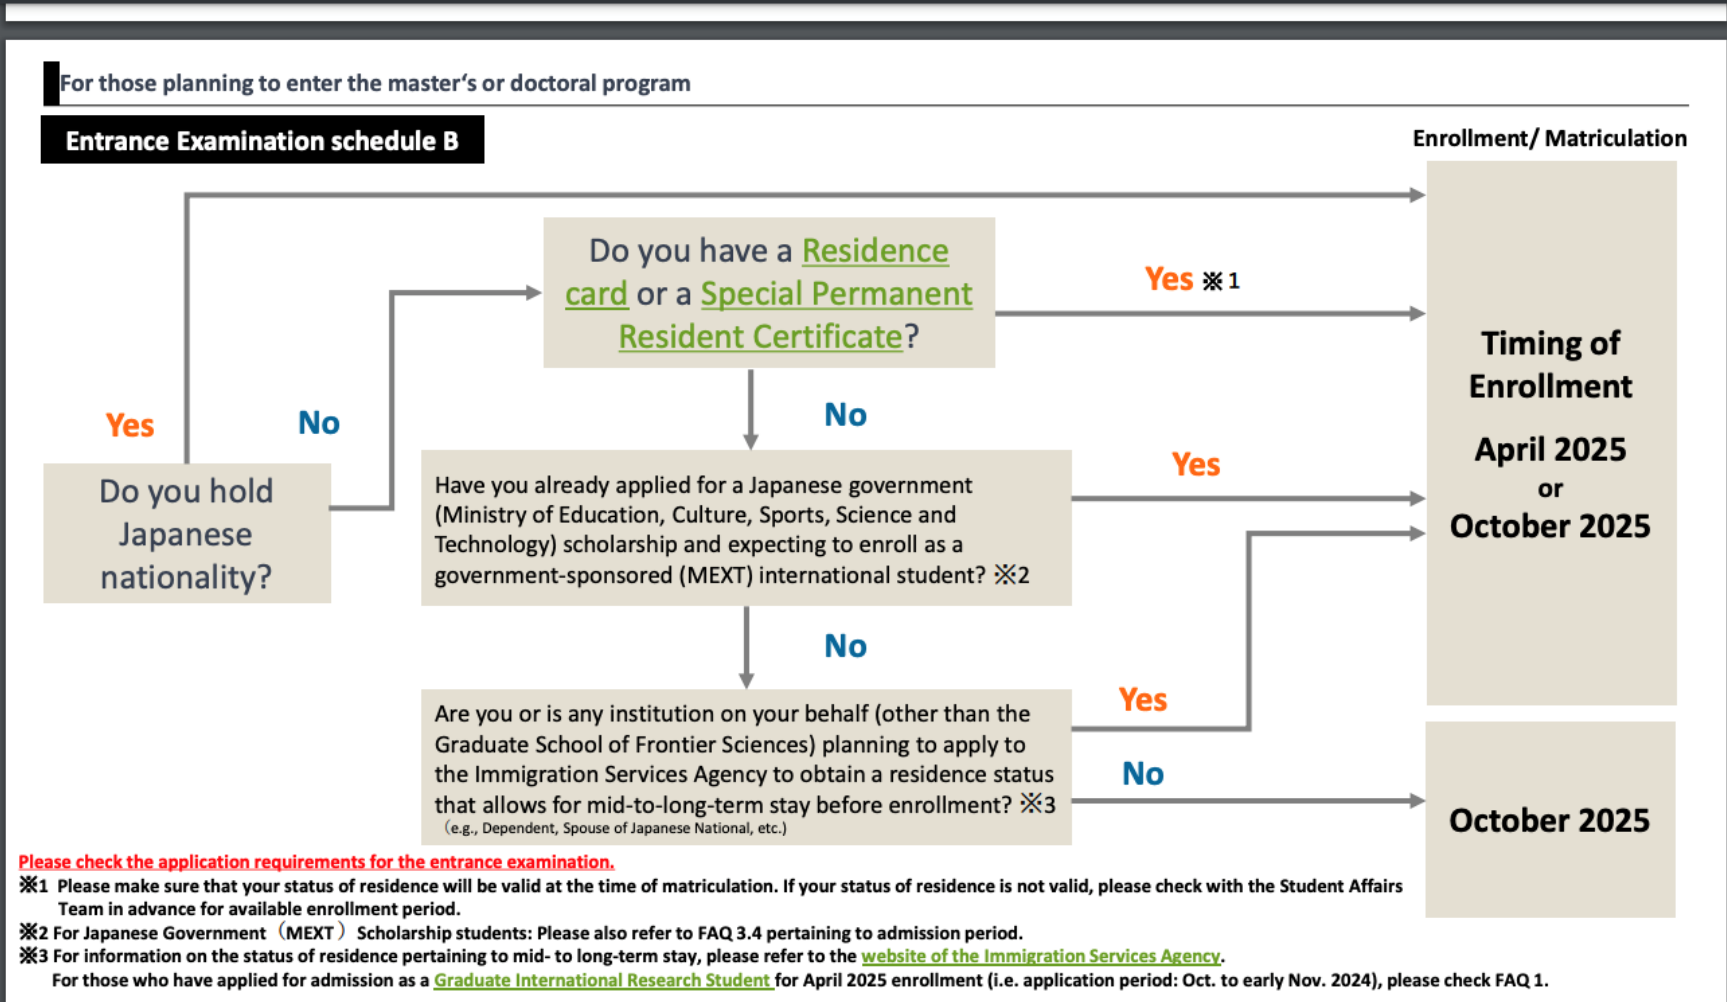

[Flowchart and FAQ on the enrollment timing for foreign applicants from the entrance examination for the academic year of 2025](#) (Updated on September. 10)

[Scholarships that can be applied for at the same time as the application for the entrance examination \(international students only\)](#). (Updated on September.3)

[Application for Certificate of Eligibility \(CoE\) \(International students only\)](#). (Updated on June.24)

Time of Admission for Successful Applicants

Admission Website URL: <https://www.k.u-tokyo.ac.jp/en/exam/info/>

Exam Overview of Graduate School Entrance Exams

Schedule A: August 6-8, 2024

- Submit English Proficiency Score Report (TOEFL iBT)
- Written Examination (Specialty)
- Oral Examination (Interview)

Multiple attempts allowed

Schedule B: January 14-16, 2025

- Submit English Proficiency Score Report (TOEFL iBT)
- Written Examination (Specialty)
- Oral Examination (Interview)

English Proficiency Evaluation Method

Schedule A: August 6-8, 2024

Submit **TOEFL iBT** Score Report

(taken on or after February 1, 2022)

Schedule B: January 14-16, 2025

Submit **TOEFL iBT** Score Report

(taken on or after February 1, 2023)

No other English scores will be accepted

- 
- TOEFL iBT Home edition
 - TOEIC
 - IELTS

Schedule B of Entrance Examination

Laboratory visits, etc. **After the application deadline, contacting a faculty member is prohibited.*

Application

November 12-18, 2024

Website of Graduate School of
Frontier Sciences

The first-stage successful candidates (those who proceed to the written examination) will be announced on the department website at noon on December 27, 2024.

Written Exam

January 14, 2025

Kashiwa Campus

On January 15, 2025, at noon, the second-stage successful applicants (those who proceed to the oral examination) will be announced on the department website.

Oral Examination

January 15 or 16, 2025

Kashiwa or Shirokanedai Campus

The third-stage successful applicants will be announced at noon on January 28, 2025 on the department website.

Announcement of Acceptance

February 12, 2025 at 10:00 a.m.

Website of Graduate School of
Frontier Sciences

Written Examination (Specialty)

All groups and courses: January 14, 2025

- The written examinations will be conducted at the Kashiwa campus in person.
 - **The exam cannot be taken online.**
- When you apply, you can choose either Japanese or English as the language of the question booklet.
- In **Medical Sciences Group** and **Computational Biology Group**, **you will select 3 questions out of 11 to answer.**
- In the **Biomedical Innovation Course**, students will select two questions out of six questions that differ from the questions for the previous two groups.
- Answers can be in Japanese or English.
- Past questions can be downloaded from the department's website.

Written Examination (Specialty)

Question Content (11 questions)

- 1 Question - Basics of life science and computer science
- 5 Questions - Life Sciences and Related Fields
- 5 Questions - Computer Science and Related Fields

- The knowledge our department asks in the written examination does not change significantly.
- We plan to announce more detailed information around late September.
- At that time, an example question on the fundamentals of life sciences and computer science will also be disclosed.

Notes (Major changes from previous years, etc.)

Written Examination (Specialty), changed from Schedule A, 2025

The questions for applicants to the Medical Sciences Group and the Computational Biology Group will be changed, and applicants will be required to select and answer **three** questions from a total of **11** questions from the fields of the life science, information science, and related fields.

For doctoral applicants to the Medical Sciences Group, the same questions will be asked as for the Master's program, but of three questions answered, **only the two questions with the highest evaluation** after scoring will be used for the pass/fail decision.

English Examination, not changed from Schedule A, 2025

For the evaluation of English proficiency, the TOEFL iBT English score sheet is to be submitted at the time of application. Please note that TOEIC, IELTS, and TOEFL iBT® Home Edition (formerly TOEFL iBT® Special Home Edition) are not applicable. Please refer to the application guidelines for valid TOEFL iBT scores.

Academic Transcripts

For Applicants to Master Course

Submit your undergraduate transcripts.

Kosen students (students in college of technology in Japan) must submit a total of four years (correspond to the undergraduate course) for the last two years of the main course and the two years of the specialized course.

For Applicants to Doctoral Course

Submit your undergraduate and graduate transcripts.

- The online application system has a limit on the number of files to be submitted, so if you have multiple transcripts, please submit them together as one PDF file.

Past exam question collection

Written Examination (Specialty)

- Past questions can be downloaded from the department's website.
- Please contact the admissions committee for past exam questions of the Biomedical Innovation course.

If you have any questions regarding the Entrance Examinations, please contact us using the form below.

Inquiry Form: <https://forms.office.com/r/QGh4j9VYXv> (February 13, 2024 URL updated)

- We will reply to your inquiry approximately within three working days.
- Please note that we may not be able to respond to inquiries unrelated to the entrance exam.
- Please check "6. FAQs" on the entrance examination page of our website before making inquiries.
<https://www.k.u-tokyo.ac.jp/en/exam/faq/index.html>
- No inquiries are accepted by phone and/or email for the results of the entrance examinations.

> [Kashiwa Campus Access Map](#) > [Kashiwa Campus Map](#)

2. Briefings for Master's program applicants

Contact Your First Choice of Supervisor

- Please make sure that you contact the prospective supervisor of your first choice before the application deadline.
- In graduate school, research is a major part of student life. We strongly recommend that you consult with the prospective supervisor of the laboratory of your first choice well in advance of application to ensure that your research and student life will proceed smoothly after admission.
- We encourage not only visits labs online, but also directly contact labs by email or other means afterwards.

Points to Keep in Mind when Filling Out Application Forms

1. Please fill in the designated number of laboratories of your choice.
 - Medical Sciences group Up to **3** labs.
 - Computational Biology group Up to **3** labs.
 - Biomedical Innovation course Up to **1** lab.
 - Even if a prospective supervisor states that they would accept you, you may be assigned to your second-choice or later due to capacity issue or others.
2. Note that only one group/course can be specified.
 - You cannot apply to laboratories across the Medical Sciences group, the Computational Biology group, and the Biomedical Innovation course.

3. Briefings for Doctoral program applicants

Contact Your First Choice of Supervisor

- Please **make sure that you contact the prospective supervisor of your first choice** before the application deadline. Discuss your research plan well.

Eligibility Screening

- Applicants who have graduated or are expected to graduate from a 6-year undergraduate program in medicine, dentistry, veterinary medicine, or pharmacy, etc. must be screened for eligibility.
- The final deadline for document submission is October 15, but the deadline for prior notification to the graduate school is October 3.
- In case that an applicant has not contacted us in advance, please consult with us immediately.

Applicants to Doctoral Course - Written Exams, English Proficiency

- Exemption
 - Not required for those who have completed the Master's program at our graduate school.
 - See Table 1 in the Applicant's Guide for details.
- Submit English Proficiency Score Report (TOEFL iBT)
 - If you are applying to the Biomedical Innovation Course, and if you are from UTokyo Master courses, you are exempt from submitting TOEFL iBT.
- Need to take Written Examination (Specialty)
 - Please note that the eligibility and exemption rules are different from those in a few years ago.
 - Written exams are completely the same as ones for applicants to Master Course

Written Exams for Applicants to Doctoral Program: Only for the Medical Sciences Group

- The evaluation method for examinees in the Medical Sciences group has been changed.
 - The same written examination as the master's degree application is required.
 - Out of the three questions answered, only the two questions with the highest scores will be used for the pass/fail decision.

(Example 1) If the answers to the three questions are 70 points, 60 points, and 50 points.

→ Adopting the scores of 70 and 60.

(Example 2) If the answers to the three questions are 80 points, 70 points, and 0 points.

→ Adopting the scores of 80 and 70.

Applicants to Doctoral Course - Oral Examination (Interview)

- Applicants will present their own research, including a master's thesis.
- You are required to submit an abstract of your presentation, including your master's thesis, in advance.
 - Instructions of how to submit the abstract will be provided after the announcement of the first-stage screening.
- We will comprehensively evaluate your basic academic skills, including your field of specialization, and your research motivation.
- We will contact those who graduate from (or are graduating from) our department, as the schedule and evaluation methods may differ.

Special Selection for Applicants with Profession

- If you meet the conditions below, you may take the Special Selection for Applicants with Professions.

Applicants with Professions: An applicant who has received written confirmation from their employer that they will work for the company for 30 hours or more per week while enrolled, and will be paid during the period.

- Applicants who select the Special Selection for Applicants with Professions will take the same examinations as those in the ordinary exams.
- The difference might be that our evaluation will place greater emphasis on their experience in their profession.

Special Selection for Applicants with Overseas Education

- We will **NOT** offer a **Special Selection for Applicants with Overseas Education.**
- Please take the ordinary examination.

- We will **NOT** offer a **Special Selection for Applicants with Overseas Education.**
- Please take **Ordinary Exams.**

Take-Home Message

- Please make sure that you contact the prospective supervisor of your first choice before the application deadline. Discuss your research plan well. Tell them clearly that you apply.
- Please check the major web page frequently.
 - X (@cbmsPr) also provides information related to entrance examinations (in Japanese).

4. Laboratory Introduction Video

Laboratory Introduction Video

- On the day of the briefing session, we will let you watch videos introducing all the laboratories that will be recruiting students for this entrance examination.
- Please note that laboratories may accept only master's degree applicants or only doctoral applicants.
- On the day of the briefing session, you can also watch lab intros from the playlist by master's and doctoral degree, and by group and course.
- Many laboratories will continue to release videos introducing their laboratories after the briefing session until the application deadline.

Online Laboratory Visits

- Some laboratories accept online lab visits.
- The online lab visit today is starting at **16:00**.
- We accept inquiries by email at any time, including inquiries about labs for which the email address is not indicated.
- **At least, even if you have visited the laboratory online, please contact the prospective supervisor again and discuss thoroughly about your research plan after enrollment.**

Today's Schedule from Now On

Question and Answer Session

We will answer questions received until around 3:00 pm.
Questions will be accepted in Japanese and English.

Laboratory Introduction Video

Please watch the introduction videos of laboratories on the
Student Recruitment Status page.

Different venue for each lab (Today, starting at 16:00)

Please join in at the laboratory visit URL from the lab visit
information site linked from the student recruitment status page.

Time of Admission for Successful Applicants

If a Certificate of Eligibility is newly required, you will not be able to enroll in April 2025 even if you pass the Entrance Examination under Schedule B. (Please check the flowchart)

Graduate School Entrance Examinations, Schedule B

January 2025 Examination

A part of the oral examinations will be conducted in August 2025

August 2025 Examination

A part of the oral examinations will be conducted in January 2026

Graduate School Entrance Examinations, Schedule A
