Applicant's Guide (Master's Program)

Degree Title

- Students who complete the Master's Program will be awarded the degree of the Master of Science or Master of Medical Science.
- The appropriate degree title will be determined by the degree examination committee, based on the content of the master's thesis.

Applicant Eligibility

- Please refer to the Guidelines for Applicants to the AY 2026 Master's Program, GSFS (the Guidelines, hereafter). See "2. Applicant Eligibility" for details.
- In particular, foreign applicants should refer to "For non-Japanese applicants" at the beginning of the Guidelines.

Submitting Documents

- The application must be filed through the online application system.
- When submitting an electronic application, upload the Research Plan (Master's Program), the Inquiry Sheet (the response PDF for Microsoft Forms, Master's Program), and various certificates such as transcripts and graduation certificates as supplementary materials after converting them into PDFs. Certificates must be submitted at the time of the admission procedure.
- Individuals employed by corporations, government agencies, organizations, etc., who wish to enroll in school while maintaining their employment status, should consult closely with their first-choice advisor and submit a Study-Work Balance Plan (approximately one A4 page in length, format is free).
- Applicants who do not have Japanese as their native language can submit, as optional supplementary materials, certificates of Japanese language proficiency test results and records. We accept only JLPT N1 certificates.
- The electronic application deadline for Entrance Exam Schedule B is Monday, November 17.
- Applications and submissions of documents, etc., online must be done by first confirming the instructions on the website of this graduate school (<https://www.k.u-tokyo.ac.jp/en/exam/info/>) and following the instructions.

Quota and Choosing Laboratories

- The quota is 53 for Admission Schedule A and some for Admission Schedule B.
- Choose one group/course from the Medical Sciences group, Computational Biology group, or Biomedical Innovation course, and select it the Inquiry Sheet (Master's Program) with the preferred supervisor.
- Applicants to the Medical Sciences group and the Computational Biology group should list up to third-choice prospective supervisors, while applicants to the Biomedical Innovation course should only list their first-choice prospective supervisor on the Inquiry Sheet (Master's Program).
- It is not possible to request guidance from supervisors across the Medical Sciences group, the Computational Biology group, and the Biomedical Innovation course.
- There are times when you may not be assigned to the lab you requested. Regarding the desired laboratories, a reconfirmation of intent will be conducted during the oral examination.

Selection Procedure

- GSFS has two types of admissions, the Ordinary Examination, and a Special Selection for Applicants with Overseas Education. Nonetheless, our department, Department of Computational Biology and Medical Sciences (CBMS) does not provide a Special Selection for Applicants with Overseas Education.
- In our department, the applicants can use Japanese and/or English to write in the Research Plan, to answer in Written Examination and Oral Examinations.
- The exams will be conducted mainly at the Kashiwa campus. The venue and other details will be communicated by e-mail.

Selection will be conducted based on a comprehensive evaluation of the Research Plan (Master's Program), academic transcripts, and English score reports* (TOEFL iBT** or TOEIC Listening & Reading Test***) submitted at the

time of online application through the document-based screening (1st-stage selection), the Written Examination (Specialty) (2nd-stage selection), and the Oral Examination (3rd-stage selection).

* The submission of score reports by the examinee and the administering organization is mandatory at the time of application, and the TOEFL ITP test will not be conducted. Please note that other English score reports, such as IELTS, are not accepted.

** TOEFL iBT Home Edition is not accepted

*** Limited to tests conducted within Japan. Submission via the Official Test Score Verification Service is mandatory.

1st-stage selection

Research Plan

The Research Plan (Master's Program) contains sections to describe the following items I to IV. Please follow the instructions in Research Plan (Master's Program) and answer within the word limit (for details, please refer to the Research Plan (Master's Program)).

Download the MS Word file of the Research Plan (Master's Program) from the department's website (<https://www.cbms.k.u-tokyo.ac.jp/en/admission/application/>) and fill it out according to the instructions provided in this Applicant's Guide. After filling out the form, save it as a PDF file, and submit the PDF file online.

- I. About prior consultations with the supervisor of first choice regarding research.
- II. Reasons for wishing to enter graduate school and the laboratory of the first-choice supervisor.
- III. Your research theme in the first-choice lab.
- IV. Your career plan after completion of the Master's program

Regarding III, if the applicant cannot explain their desired research theme at the time of application due to reasons such as challenging a different specialized field after entering the graduate school, they may describe "the knowledge acquired and skills developed so far in preparation for conducting research in the laboratory of their first-choice supervisor."

English

Submit the score reports for either the TOEFL iBT (TOEFL iBT Home Edition is not acceptable) or the TOEIC Listening & Reading Test. Refer to "7. English Score Report" in the Guidelines for the Master's Program of the Graduate School for details on the validity period of English scores and the procedure for sending TOEFL iBT score reports.

The TOEIC Listening & Reading Test score reports should be submitted following the instructions provided on the "Public Test Score Confirmation Service" page (<https://www.iibc-global.org/toeic/test/lr/guide04/score2.html>). The application code for the graduate school entrance examination of this department is "00027405".

2nd-stage selection

Written Examination (Specialty) will be conducted for the successful candidates of the first-stage selection. Applicants to the Medical Sciences group and the Computational Biology group must select and answer three questions out of a total of 11 questions from the fields of the life science, information science, and related fields. Applicants aspiring to join the Biomedical Innovation course must select two questions from a total of eight questions covering topics such as intellectual property, bioethics, medical statistics, public health, and related fields, based on their desired field of study. Additionally, they must answer one common question related to social sciences, making a total of three questions to be answered. For changes to these Written Examinations, please refer to the information on the "Examination Details" section of the department's website (<https://www.cbms.k.u-tokyo.ac.jp/en/admission/exam/>). An English version will be prepared for those who requested it in the Inquiry Sheet (Master's Program) at the time of application. Answers should be written in English and/or Japanese. Details will be notified after the announcement of the successful candidates in the first-stage screening.

3rd-stage selection

Oral Examination will be conducted for the successful candidates of the second-stage selection. Oral examinations

for the Medical Sciences group and the Computational Biology group will be conducted at the Kashiwa Campus. Oral examinations for the Biomedical Innovation course will be conducted at the Shirokanedai campus. The language (Japanese or English) declared in the Inquiry Sheet (Master's Program) at the time of application will primarily be used. Details will be notified after the announcement of the successful candidates in the first-stage screening.

Exam Schedule

The following schedule will be used. All times are in Japan Standard Time (JST).

Entrance Exam Dates for Schedule B

Primarily, Written Examinations and Oral Examinations will be conducted in person at the Kashiwa campus.

December 26, 2025	Fri	12:00	Announcement of the first-stage screening (posted on the department web site)
January 13, 2026	Tue		Written Examination (Specialty)*
January 14, 2026	We	12:00	Announcement of the second-stage selection (posted on the department web site)
January 14, 2026	We	afternoon	Oral Examination** (the Biomedical Innovation course only; Shirokanedai Campus)
January 15, 2026	Thu		Oral Examination (the Medical Sciences group & the Computational Biology group)**
January 27, 2026	Tue	12:00	Announcement of the third-stage screening (posted on the department web site)
February 12, 2026	Thu	10:00	Official announcement of successful candidates *** (posted on the Graduate School's website)

*The written examinations will be conducted only for the successful candidates of the first-stage selection.

**The oral examination will be conducted only for the successful candidates of the second-stage selection. Oral Examinations for the Medical Sciences group and the Computational Biology group will be conducted at the Kashiwa Campus. The oral Examination for the Biomedical Innovation course will be conducted at the Shirokanedai campus.

***Please refer to 10. *Announcement of Results and Admission Procedures* in the Guidelines and Table 1.

Miscellaneous

- If the applicant has not obtained the required degree(s) by the time of enrollment, he/she will not be enrolled even if he/she passes the examination, nor will he/she be allowed to change the time of enrollment.
- Please refer to the Guidelines and the department's web site (<http://www.cbms.k.u-tokyo.ac.jp/en/>) for details.

Personal Information Statement

The school shall use personal information of applicants such as names and addresses only for the purpose of selecting successful applicants (e.g., processing applications, conducting screening), announcing accepted applicants, and conducting admission procedures. This personal information will be used only for students who have enrolled in the program, and will be used for educational affairs (student registration, study, etc.), student support (health management, employment support, tuition waiver and scholarship applications, library use, etc.), and tuition fee collection. The examination results may be used in future studies for improving both the entrance examination system and the education at the University of Tokyo.

Contact Information

Please contact the Student Affairs Team for inquiries regarding the operation of the online application system, payment of the screening fees, submission of transcripts and degree certificates, residence cards, and visas. Inquiries concerning Research Plan, Inquiry Sheet, submission of the English proficiency score reports, CHSI certificate, Research/Work Balance Plan, and Written Examination and Oral Examinations should be addressed to the Admissions Committee of Department of Computational Biology and Medical Sciences.

Student Affairs Team, Graduate School of Frontier Sciences, The University of Tokyo

Please check the '6. Frequently Asked Questions' on the website of the Graduate School of Frontier Sciences. Please inquire using the inquiry form in '3. Inquiries about the entrance examination' of the entrance examination information.

- Admission Website: <https://www.k.u-tokyo.ac.jp/en/exam/info/>
- Frequently Asked Questions: <https://www.k.u-tokyo.ac.jp/en/exam/faq/index.html>
- Contact Form: <https://forms.office.com/r/AxAYbYz3eT>

Admissions Committee, Department of Computational Biology and Medical Sciences

First, check the "Frequently Asked Questions" section in the admissions information on the department's website. Then, please contact us via email at the following email address.

- Admissions Page of the Department Website: <https://www.cbms.k.u-tokyo.ac.jp/en/admission/>
- Frequently Asked Questions: <https://www.cbms.k.u-tokyo.ac.jp/en/admission/faq/>
- e-mail: nyushi-cbms@edu.k.u-tokyo.ac.jp

Table1: How to Submit Documents and Deadlines (Schedule B)

	Documents to be submitted online (November 11 to November 17, 11:00 PM JST)	Original certificates to be submitted**
Personal details	Online input	Not necessary
Research Plan	Upload a PDF file created from a template form provided by the department. Upload only one file.	Not necessary
Inquiry Sheet (Microsoft Forms)	Fill out the online form, convert the response displayed after submission into a PDF file, and upload it.	Not necessary
English score reports (TOEFL iBT* ¹ or TOEIC L&R* ²)	Enter the scores into the Inquiry Sheet mentioned above. Scores from February 1, 2024, onward are valid. Request submission from the examination organization by the application deadline.	Direct submission from the examination conducting organization (Request by the application deadline)
Academic transcripts	<u>Applicants expected to obtain a bachelor's degree</u> Upload a PDF file of your academic transcripts up to the time of application. If the original is on paper, upload the scanned file.	Including the grades from the final academic year Original academic transcript* ³ (at the time of the enrollment procedure)
	<u>Applicants who have obtained a bachelor's degree</u> Upload a PDF file of your academic transcripts. If the original is on paper, upload the scanned file.	Original academic transcript* ³ (at the time of the enrollment procedure)
Graduation certificate (degree certificate)	<u>Applicants expected to obtain a bachelor's degree</u> Submit during the admission procedure. Not required at the time of the online application.	Original certificate* ³ (at the time of the enrollment procedure)
	<u>Applicants who have obtained a bachelor's degree</u> Upload the PDF file. If the original is on paper, upload the scanned file.	Original certificate* ³ (at the time of the enrollment procedure)
CHSI certificate (Only for examinees who graduated from a university in China)	<u>Applicants expected to obtain a bachelor's degree</u> Not required at the time of the online application.	Upload the PDF file by the admission procedure. URL: https://www.cbms.k.u-tokyo.ac.jp/en/admission/chsi_upload/
	<u>Applicants who have obtained a bachelor's degree</u> Upload the PDF file of the English version of 'Online Verification Report of Higher Education Degree Certificate'.	Not necessary
Research/Work Balance Plan (If you wish to attend school while staying in service of a company, a government, or an organization.)	Upload a PDF file of the plan, approximately one page in A4 size (free format).	Not necessary
Certificate of Japanese Language Proficiency Test N1 (optional)	Only the certificate of the JLPT N1 Japanese Language Proficiency Test results and scores will be accepted. Please upload a PDF file. If the original is on paper, upload the scanned file.	Required* ⁴ (To be submitted during the Oral Examination. Submitted documents will not be returned.)

*1By the deadline for online application, please enter the code for the "Graduate School of Frontier Sciences" on the ETS website and have the official score certificate sent directly from ETS. The code is DI (Designated Institution) code "8001", and the Department code is "99".

*2Please submit it by following the instructions on the "Public Test Score Confirmation Service" page on the IIBC website before the online application deadline. The application code is "00027405".

*3Failure to submit the original documents by the designated date may result in denial of enrollment. Original transcripts and graduation certificates (degree certificates) must be submitted to Student Affairs Team of the graduate school at the enrollment procedure.

*4Please bring it to the Oral Examination and submit it to the staff before the start of the examination.

Research Plan (Master's Program) Version 2.0

Department of Computational Biology and Medical Sciences, Graduate School of Frontier Sciences

Name (Furigana)	
Name (in Kanji)	
Name (in English)	

I. Describe any prior consultations regarding research with your first-choice supervisor.

(font size: 10pt, approx. 250 characters in Japanese or 50 words in English)

If plagiarism (copying) by making someone else's text (book, paper, web page) appear to be their own, is found, you may not be considered for screening.

It is prohibited to send this Research Plan to the desired supervisor before application.

This italicized section should be removed before you write.

II. Please describe the reasons for pursuing graduate studies and your interest in joining the research laboratory of your first-choice supervisor.

(font size: 10pt, approx. 600 characters in Japanese or 300 words in English)

If plagiarism (copying) by making someone else's text (book, paper, web page) appear to be their own, is found, you may not be considered for screening.

This italicized section should be removed before you write.

III. Please specify the research topic you wish to pursue if assigned to the laboratory of your first-choice supervisor. If there is no such research theme, describe "what you have learned and the skills you have acquired" in order to conduct research in the laboratory of your first-choice instructor.

(font size: 10pt, approx. 1200 characters in Japanese or 600 words in English)

If plagiarism (copying) by making someone else's text (book, paper, web page) appear to be their own, is found, you may not be considered for screening.

This italicized section should be removed before you write.

IV. Describe your envisioned future career after completing the Master's Program.

(font size: 10pt, approx. 250 characters in Japanese or 150 words in English)

If plagiarism (copying) by making someone else's text (book, paper, web page) appear to be their own, is found, you may not be considered for screening.

This italicized section should be removed before you write.

Applicant's Guide (Doctoral Program)

Degree Title

- Students who complete the Doctoral Program will be awarded either the degree of the Doctor of Science or Doctor of Medical Science.
- The appropriate degree title will be determined by the degree examination committee, based on the content of the doctoral thesis.

Applicant Eligibility

- Please refer to the Guidelines for Applicants to the 2026 Doctoral Program (the Guidelines, hereafter).
- In particular, foreign applicants should refer to “For non-Japanese applicants” at the beginning of Guidelines for Applicants.
- Those who have graduated from or are expected to graduate from a six-year undergraduate course in medicine, dentistry, veterinary medicine, or pharmacy, and those who wish to qualify by “⑥ through ⑧ for Regular Admission” indicated in “2. Applicant Eligibility” in the Guidelines, are subjected to individual eligibility screening before the admission application. Please ask Student Affairs Team for details and how to submit documents. For individual eligibility screening, it is necessary to contact through the inquiry form on the graduate school's admission website by Thursday, October 2, 2025, for Admission Schedule B. Those with a doctoral degree but without a master's or professional degree must undergo the individual eligibility screening. Note that the individual eligibility screening will only determine whether the applicant is qualified to take the entrance examinations or not. Therefore, even after receiving the notification of acceptance of the individual eligibility screening, one will need to apply for the entrance exams on the online application system in the same way as regular applicants do.

Submitting Documents

- The application must be filed through the online application system.
- During the online application, upload the Research Plan (Doctoral Program), the Inquiry Sheet (the response PDF for Microsoft Forms, Doctoral Program), and various certificates such as academic transcripts and graduation certificates as supplementary materials after converting them to PDF. Certificates must be submitted at the time of the admission procedure.
- Individuals employed by corporations, government agencies, organizations, etc., who wish to enroll in school while maintaining their employment status, should consult closely with their first-choice advisor and submit a Study-Work Balance Plan (approximately one A4 page in length, format is free).
- Applicants who do not have Japanese as their native language can submit, as optional supplementary materials, certificates of Japanese language proficiency test results and records. We accept only JLPT N1 certificates.
- The electronic application deadline for Entrance Exam Schedule B is Monday, November 17.
- Applications and submissions of documents, etc., online must be done by first confirming the instructions on the website of this graduate school (<https://www.k.u-tokyo.ac.jp/en/exam/info/>) and following the instructions.

Quota and Choosing Laboratories

- The quota is 24 for Admission Schedule A and some for Admission Schedule B.
- Select one preferred supervisor on the Inquiry Sheet (Doctoral Program).
- Before applying, be sure to contact your prospective supervisor. However, failure to make prior consultation does not preclude an applicant from applying.

Selection Procedure

- GSFS has several types of admissions, the Regular Admission, a Special Selection for Applicants with Overseas Education, and Special Selection for Applicants with Professions. Nonetheless, our department, Department of Computational Biology and Medical Sciences (Dept of CBMS) does not provide a Special Selection for Applicants with Overseas Education. If you meet the criteria for *applicants with professions* below, you may select the Special

Selection for Applicants with Professions.

- ☐ Applicants with Professions: An applicant who has received written confirmation from their employer that they will work for the company for 30 hours or more per week while enrolled, and will be compensated for such work.
- In our department, the applicants can use Japanese and/or English to fill in the Research Plan, to answer in Written Examination and Oral Examinations.
- The exams will be conducted mainly at the Kashiwa campus. The venue and other details will be communicated by e-mail.

Selection will be conducted based on a comprehensive evaluation of the Research Plan (Doctoral Program), academic transcripts, and English score reports* (TOEFL iBT** or TOEIC Listening & Reading Test***) submitted at the time of online application through the document-based screening (1st-stage selection), the Written Examination (Specialty) (2nd-stage selection), and the Oral Examination (3rd-stage selection). Applicants who select Special Selection for Applicants with Professions will take the same examination subjects as those in the Regular Admission. Our evaluation will place greater emphasis on their experience in their profession.

* The submission of score reports by the examinee and the administering organization is mandatory at the time of application, and the TOEFL ITP test will not be conducted. Please note that other English score reports, such as IELTS, are not accepted.

** TOEFL iBT Home Edition is not accepted

*** Limited to tests conducted within Japan. Submission via the Official Test Score Verification Service is mandatory.

1st-stage selection

Research Plan

The Research Plan (Doctoral Program) contains sections to describe the following items I to IV. Please follow the instructions in Research Plan (Doctoral Program) and answer within the word limit (for details, please refer to the Research Plan (Doctoral Program)).

Download the MS Word file of the Research Plan (Doctoral Program) from the department's website (<https://www.cbms.k.u-tokyo.ac.jp/en/admission/application/>) and fill it out according to the instructions provided in this Applicant's Guide. After filling out the form, save it as a PDF file, and submit the PDF file online.

- I. About prior consultations with the supervisor of first choice regarding research.
- II. Reasons for wishing to enter graduate school and the laboratory of the first-choice supervisor.
- III. Your research theme in the first-choice lab.
- IV. Your career plan after completion of the Doctoral Program

English

All applicants, unless otherwise exempted, must submit a score report of TOEFL iBT (TOEFL iBT Home Edition is not acceptable) and/or TOEIC Listening & Reading Test. Exemptions are detailed in Table 1. Refer to "7. English Score Report" in the Guidelines for the Doctoral Program of the Graduate School for details on the validity period of English scores and the procedure for sending TOEFL iBT score reports.

The TOEIC Listening & Reading Test score reports should be submitted following the instructions provided on the "Public Test Score Confirmation Service" page (<https://www.iibc-global.org/toeic/test/lr/guide04/score2.html>). The application code for the graduate school entrance examination of this department is "00027405".

2nd-stage selection

Written Examination (Specialty) will be conducted for the successful candidates of the first-stage selection, but some applicants are exempted (see Table 1 for exemption). Applicants to the Medical Sciences group and the Computational Biology group must select and answer three questions out of a total of 11 questions from the fields of the life science, information science, and related fields. Additionally, for applicants to the Doctoral Program of the

Medical Sciences group, only the two highest-scoring answers out of the three answered questions will be considered for the pass/fail decision after grading. Applicants aspiring to join the Biomedical Innovation course must select two questions from a total of eight questions covering topics such as intellectual property, bioethics, medical statistics, public health, and related fields, based on their desired field of study. Additionally, they must answer one common question related to social sciences, making a total of three questions to be answered. For changes to these Written Examinations, please refer to the information on the "Examination Details" section of the department's website (<https://www.cbms.k.u-tokyo.ac.jp/en/admission/exam/>). An English version will be prepared for those who requested it in the Inquiry Sheet (Doctoral Program) at the time of application. Answers should be written in English and/or Japanese. Details will be notified after the announcement of the successful candidates in the first-stage screening.

3rd-stage selection

Oral Examination will be conducted for the successful candidates of the second-stage selection. Oral examinations for the Medical Sciences group and the Computational Biology group will be conducted at the Kashiwa Campus. Oral examinations for the Biomedical Innovation course will be conducted at the Shirokanedai campus. The language (Japanese or English) declared in the Inquiry Sheet (Doctoral Program) at the time of application will primarily be used. Details will be notified after the announcement of the successful candidates in the first-stage screening.

Exam Schedule

The following schedule will be used. All times are in Japan Standard Time (JST).

Entrance Exam Dates for Schedule B

Primarily, Written Examinations and Oral Examinations will be conducted in person at the Kashiwa campus.

December 26, 2025	Fri	12:00	Announcement of the first-stage screening (posted on the department web site)
January 13, 2026	Tue		Written Examination (Specialty)*
January 14, 2026	We	12:00	Announcement of the second-stage selection (posted on the department web site)
January 14, 2026	We	afternoon	Oral Examination** (the Biomedical Innovation course only; Shirokanedai Campus)
January 15, 2026	Thu		Oral Examination (the Medical Sciences group & the Computational Biology group)**
January 27, 2026	Tue	12:00	Announcement of the third-stage screening (posted on the department web site)
February 12, 2026	Thu	10:00	Official announcement of successful candidates *** (posted on the Graduate School's website)

*The Written Examination is conducted only for the successful candidates who passed the first-stage selection (refer to Table 1).

**The oral examination will be conducted only for the successful candidates of the second-stage selection. Oral Examinations for the Medical Sciences group and the Computational Biology group will be conducted at the Kashiwa Campus. The oral Examination for the Biomedical Innovation course will be conducted at the Shirokanedai campus.

***Please refer to 10. *Announcement of Results and Admission Procedures* in the Guidelines and Table 1.

Miscellaneous

- If the applicant has not obtained the required degree(s) by the time of enrollment, he/she will not be enrolled even if he/she passes the examination, nor will he/she be allowed to change the time of enrollment.
- Please refer to the Guidelines and the department's web site (<http://www.cbms.k.u-tokyo.ac.jp/en/>) for details.

Personal Information Statement

The school shall use personal information of applicants such as names and addresses only for the purpose of selecting successful applicants (e.g., processing applications, conducting screening), announcing accepted applicants, and

conducting admission procedures. This personal information will be used only for students who have enrolled in the program, and will be used for educational affairs (student registration, study, etc.), student support (health management, employment support, tuition waiver and scholarship applications, library use, etc.), and tuition fee collection. The examination results may be used in future studies for improving both the entrance examination system and the education at the University of Tokyo.

Contact Information

Please contact the Student Affairs Team for inquiries regarding the operation of the online application system, payment of the screening fees, submission of transcripts and degree certificates, residence cards, and visas. Inquiries concerning Research Plan, submission of the English proficiency score reports, CHSI certificate, Research/Work Balance Plan, employment certificate, and Written Examination and Oral Examinations should be addressed to the Admissions Committee of Department of Computational Biology and Medical Sciences.

Student Affairs Team, Graduate School of Frontier Sciences, The University of Tokyo

Please check the '6. Frequently Asked Questions' on the website of the Graduate School of Frontier Sciences. Please inquire using the inquiry form in '3. Inquiries about the entrance examination' of the entrance examination information.

Table 2: How to Submit Documents and Deadlines (Schedule B)

	Documents to be submitted online (November 11 to November 17, 11:00 PM JST)	Original certificates to be submitted**
Personal details	Online input	Not necessary
Research Plan	Upload a PDF file created from a template form provided by the department. Upload only one file.	Not necessary
Inquiry Sheet (Microsoft Forms)	Fill out the online form, convert the response displayed after submission into a PDF file, and upload it.	Not necessary
English score reports (TOEFL iBT* ¹ or TOEIC L&R* ²)	Enter the scores into the Inquiry Sheet mentioned above. Scores from February 1, 2024, onward are valid. Request submission from the examination organization by the application deadline.	Direct submission from the examination conducting organization (Request by the application deadline)
Academic transcripts	<u>Applicants expected to obtain a Master's degree</u> Upload a PDF file of your academic transcripts up to the time of application. If the original is on paper, upload the scanned file.	Including the grades from the final academic year Original academic transcript* ³ (at the time of the enrollment procedure)
	<u>Applicants who have obtained a Master's degree</u> Upload a PDF file of your academic transcripts. If the original is on paper, upload the scanned file.	Original academic transcript* ³ (at the time of the enrollment procedure)
Graduation certificate (degree certificate)	<u>Applicants expected to obtain a Master's degree</u> Submit during the admission procedure. Not required at the time of the online application.	Original certificate* ³ (at the time of the enrollment procedure)
	<u>Applicants who have obtained a Master's degree</u> Upload the PDF file. If the original is on paper, upload the scanned file.	Original certificate* ³ (at the time of the enrollment procedure)
CHSI certificate (For examinees who graduated from universities or graduate schools in China only)	<u>Applicants expected to obtain a Master's degree</u> Upload the PDF file of the English version of 'Online Verification Report of Higher Education Degree Certificate'. The certificate for the Master's degree is not required at the time of the online application.	Upload the PDF file by the admission procedure. URL: https://www.cbms.k.u-tokyo.ac.jp/admission/chsi_upload/
